#### **Plagiarism:**

When submitting work for assessment, students should be aware of the InterActive/Canvas guidance and regulations in concerning plagiarism. All submissions should be your own, original work. Please note that you must not submit the same assignment for two different modules within your course.

**You must submit an electronic copy of your work. Your submission will be electronically checked.**

<b>Learner declaration</b>	
<b>I certify that the work submitted for this assignment is my own and research sources are fully acknowledged.</b>	
<b>Student signature:</b>	<b>Date:</b>

#### **Harvard Referencing:**

The Harvard Referencing System must be used. The Wikipedia, UKEssays.com or similar websites must **not** be used or referenced in your work.

**Learning Outcomes:**

- **LO1:** Demonstrate the understanding of machine learning and deep learning concepts for problem solving.
- **LO2:** Create reports, dashboards and visualizations using Tableau.
- **LO3:** Implement solution with integrating the applications of machine learning and visualisation for storytelling and prescriptive analytics.

**Assessment Criteria: Weighting 50%****2,000 words****Objective:**

The objective of this assignment is to evaluate your ability to design effective reports, dashboards, and visualizations using Tableau and a machine learning solution, integrate it with Tableau, and present a cohesive storytelling narrative.

A real-world problem **Titanic** - **The Complete Titanic Dataset**  
<https://www.kaggle.com/datasets/vinicius150987/titanic3/data>

**Question 1: Tableau Design (LO1, LO2)**

- Report and Visualization Design:

Design a set of reports, dashboards, and visualizations in Tableau that effectively represent relevant data related to the Titanic dataset.

- Justification of Design Choices:

Justify your design choices, explaining how each visualization contributes to conveying meaningful insights.

- Interactive Elements:

Demonstrate how these interactive features can be utilized to explore different aspects of the Titanic dataset.

**Question 2: Machine Learning and Tableau Integration (LO3)**

- Machine Learning Integration:

Implement a machine-learning solution for predicting survival in the Titanic dataset using a programming language of your choice (e.g., Python).

- Tableau Integration:

Integrate the machine learning model with Tableau to showcase predictions, insights, or classifications directly within the Tableau environment.

- Storytelling and Prescriptive Analytics:

Develop a storytelling narrative within Tableau that walks through the problem, solution, and insights derived from the integrated machine learning model.

**Submission Guidelines:** Prepare a comprehensive report showcasing your Tableau design and machine learning integration:

- Include screenshots or links to Tableau dashboards and visualizations.
- Justify design choices, explaining how each visualization contributes to conveying meaningful insights.
- Demonstrate interactive features used to explore different aspects of the Titanic dataset.
- Implement a machine-learning solution in a programming language of your choice and integrate it with Tableau.
- Develop a storytelling narrative within Tableau, walking through the problem, solution, and insights derived from the integrated machine learning model.

Deals with complex issues both systematically and creatively demonstrating self-direction and originality in tackling and solving problems	Little to no ability to use techniques to deal with complex issues systematically (including those of ethics and sustainability) and creatively to solve problems and/or make decisions.	Low utilisation of established techniques to deal with complex issues systematically (including those of ethics and sustainability) and creatively to solve problems and/or make decisions, but with limitations in techniques or approach.	Limited research or advanced scholarship to their area of study by using a range of information and established and advanced techniques	Competent understanding of solving problems, through own research or advanced scholarship displaying a comprehensive understanding of established and advanced techniques	Good understanding of solving problems through own research and advanced scholarship critically selecting and displaying a comprehensive understanding of established and advanced techniques.	Very Good problem-solving skills displaying a comprehensive understanding of techniques applicable to their own research or advanced scholarship	Excellent range of extremely well-developed problem-solving displaying an understanding of techniques applicable to their own research or advanced scholarship beyond which is taught.	Exceptional problem-solving skills with sophisticated evaluation and application of a wide range of advanced information and techniques to undertake projects.
Comprehensive understanding of techniques applicable to their own research or advanced scholarship	Little to no understanding of techniques applicable to their own research or advanced scholarship or their limitations and ambiguities.	Low understanding of techniques applicable to their own research or advanced scholarship including their limitations and ambiguities.	Limited understanding of key techniques applicable to their own research or advanced scholarship including their limitations and ambiguities.	Competent understanding of techniques applicable to their own research or advanced scholarship including their limitations and ambiguities	Good understanding of techniques applicable to their own research or advanced scholarship and a some understanding of more specialised techniques.	Very good understanding of techniques applicable to their own research or advanced scholarship and a some understanding of more specialised techniques.	Excellent understanding of techniques applicable to their own research or advanced scholarship and mastery of some more specialised areas.	Exceptional understanding of techniques applicable to their own research or advanced scholarship and mastery of some more specialised areas.

Systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study or area of professional practice	Little to no knowledge of the subject with limited breadth or depth or deficiencies in major areas or currency.	Low knowledge of the subject lacking coherence, breadth, or detail with only some reference to ideas or arguments at the forefront of any part of the subject.	Limited knowledge to deal with terminology, facts and concepts some of which is informed by the forefront of defined areas of the subject.	Competent knowledge of ideas or arguments at the forefront of any part of the subject sufficient to deal with current issues in the discipline, generally more descriptive than critical or analytical.	Good knowledge of ideas or arguments at the forefront of any part of the subject showing a clear, critical insight into the discipline as whole and current issues/problems.	Very good knowledge of ideas or arguments at the forefront of the subject some of which are significantly beyond what has been taught and show a critical insight into the discipline and current issues/problems.	Excellent knowledge of ideas or arguments at the forefront of the subject many of which are significantly beyond what has been taught and show a critical insight into the discipline and current issues/problems.	Exceptional knowledge of ideas or arguments at the forefront of the subject most of which are significantly beyond what has been taught and show a critical insight into the discipline and current issues/problems.
Conceptual understanding that enables the student to display originality in the application of knowledge	Little to no conceptual understanding or argument and a focus on descriptive explanations which do not comment on arguments of others or alternative views.	Low conceptual understanding and arguments are weak or poorly constructed, and the work does not critically evaluate the arguments of others or consider alternative views.	Limited conceptual understanding and argument construction with critical evaluation of alternative views or comment on advanced scholarship.	Competent conceptual understanding and argument construction with critical evaluation of a range of views and consistent engagement with advanced scholarship.	Good conceptual understanding which critically evaluate and synthesise other views and information with a thoughtful interpretation of advanced scholarship.	Very good conceptual understanding which systematically synthesises a wide range of views with a critical insight into advanced scholarship.	Excellent conceptual understanding which critically apply a wide range of views through a perceptive use of advanced scholarship.	Exceptional conceptual understanding of publishable quality with systematic engagement and usage of advanced scholarship.
